Confirmation for formwork beams „Kaufmann HT 20 plus“

To whom it may concern

The formwork beams of type “Kaufmann HT 20 plus” were tested at MPA University of Stuttgart and fulfilled the requirements as given in DIN EN 13377 and DIN 20000-2. Based on the results of these tests and the initial inspection of the factory production control at the factory located in A-6870 Reuthe, the “Übereinstimmungszertifikat” No. ÜZ-BWU03-I 14.24.39 was issued on August 5th, 2014.

The ongoing twice-a-year-inspection of the factory production control at the factory located in A-6870 Reuthe and the monthly testing of the formwork beams according to the requirements as given in DIN EN 13377/ DIN 20000-2 are as well performed by MPA University Stuttgart, based on the existing contract.

Unfortunately we can, due to formal reasons, not issue the “Übereinstimmungszertifikat” No. ÜZ-BWU03-I 14.24.39 in English language. But we can confirm that the inspection of the factory production control at your factory located in A-6870 Reuthe and the monthly testing of the formwork beams, according to the requirements as given in DIN EN 13377/DIN 20000-2, are performed by MPA University of Stuttgart and fulfilled, so far, the requirements as given in DIN EN 13377.

Kind regards
